G.O. No. Ms. 2432.

Dated the 23rd June 1945.

[Despatch Abstract.]

Establishments - Agriculture - Sri K. Narasimhamurthi, K., Mechanic, Agricultural Research Station, Hagari Treating portion of service as equivalent to practical experience in a workshop or factory prescribed in Rule 7 of Special Rules for Madras Agricultural Subordinate Service - Approved.

C.F. 32 (a).

12960

AGRICULTURAL Department

Received Registered

From (Name) Rao Bahadur B. Viswa Nath, C.I.E., D.Sc., F.I.C.,

Designation Director of Agriculture,

Station Madras.

The Additional Secretary to Government, Development Department.

Enclosures:

No. A. 4.2481/44, dated the 24th Feb. 1945:

Sir,

Sub: Establishment - Agriculture - Mechanic, Agricultural Research Station, Hagari - Emergency candidate - Regularisation of appointment - Requested.

Sri K. Narasimhamurti, the present mechanic at the Agricultural Research Station, Hagari was appointed on 25th October 1943 under emergency provisions in place of Sri Venkata Rao who was relieved to join military duty. In response to the advertisement for the mechanic's place at the station, his was the only application received. As the present mechanic had to be relieved urgently for war service, Sri K.Narasimhamurti was appointed. At the time of appointment, he had the following qualifications:-

1. He had passed out of the Government Industrial School, Bellary after undergoing a course of 5 years.

2. He had practical experience in a ginning factory for nearly 6 months.

2

2. A certificate to the above effect from Sri H. Gangappa, proprietor of a ginning factory, Bellary is enclosed for perusal and return.

p 3 below

3. As per rules governing the regular appointment as mechanic in the department, he must have acquired practical experience for one year in a factory or workshop, in addition to a pass in a Government Industrial School. By accepting the appointment in the department, Sri K. Narasimhamurthy has lost the chance of completing one year's practical experience and this will be a definite disadvantage to him in the matter of qualifying himself for regular Government appointment. He has served in the department for more than one year and has been in charge of oil engines and the farm implements on the station. I request therefore that Government be pleased to consider the services of the mechanic in the Agricultural Research Station as equivalent to his acquiring practical experience in a factory or workshop. Since he has had nearly 6 month's practical experience in a factory prior to his joining the department, the balance of period required to make up one year's period of practical experience may be counted against his service in the department from the date of his appointment and he may be placed on probation from the date of the expiry of the above period.

Rule 7 or 1 para 5-7 of PKR 1124.

4. It is very difficult to get mechanics during these ~~work~~ days and I request Government may be pleased to pass early orders.

Your obedient servant,

for Director of Agriculture.

To

The Secretary,

Madras Public Service Comm., Madras.

Sir

Sub: Establishment - Agriculture - Agricultural Research Station, Hagari - Sri K. Narsimha - Mistri (Mechanic) - Emergency appointment - Regularisation

Sri K. Narasimhamurthi, the only applicant in response to our advertisement was appointed as Mechanic at the Agl. Research Station, Hagari in October 1943 under Rule 9 (a) (i) of the general rules for the Madras Provincial and Subordinate Services as the permanent incumbent was to be relieved urgently for Military duty. Sri Narasimhamurthi has passed the Mechanics course of 5 years at the Govt Industrial School, Bellary, but has only about 6 months practical

Z 4

1.9.N

experience in a ginning factory with reference to the second qualification prescribed for Mechanics in Rule I of the special rules for the Madras Agl. Subordinate ~~Service~~ Service. In view of the dearth of qualified candidates and the fact that Sri. K. ~~Narayana~~ Narasimhamurthi lost his chance of completing one years practical experience at the factory by accepting the appointment in the department the D.A has recommended ~~(Copy enclosed)~~ that the balance of the 11 months period required to make up one years period of practical experience may be counted against his service in the dept from the date of his appointment and that he may be placed on probation from the date of expiry of this above period. I am directed to request you to obtain the advice of the Commission as to whether the service of the mechanic at the Agl. Research Station Hagari may be deemed to be equivalent to the practical experience in a factory or workshop required under the rules and communicate it to Govt. at an early date.

Yours faithfully,

S.O.

No.1546-C/45-4, dated 28-5-1945.

Sir,

Qualification - Madras Agricultural Subordinate Service - Mechanic - Sri K.Narasimhamurthi - Service as Mechanic - Equivalence to practical experience in a workshop or Factory - Your letter No.12960-AI/45-2, dated 23-3-1945.

I am to enclose a copy of letter No.A.4-2481/44, dated 15-5-1945 from the Director of Agriculture, Madras and to say that in view of the nature of the duties and responsibilities of the Mechanic at the Agricultural Research Station, Hagari, the Commission takes the view that the service put in by Sri K.Narasimhamurthi as Mechanic in the Agricultural Research Station, Hagari, may be considered as equivalent to the practical experience in a workshop or a Factory prescribed for the post of Mechanic in the Madras Agricultural Subordinate Service.

Your obedient servant,

SECRETARY.

c.kn.28-5-1945.

Copy of letter No.A.4-2481/44, dated 15-5-1945 from the Director of Agriculture, Madras, to the Commission.

Sub: Madras Agricultural Subordinate Service - Mechanic, Sri K.Narasimhamoorthy - Service as temporary Mechanic - Equivalence to practical experience in a workshop or factory.

Ref: Your letters Nos.1546-C/45-1, dated 9-4-1945 and 5-5-1945.

I am furnishing below the nature of the duties and responsibilities of the mechanic at the Agricultural Research Station Hagari, Bellary P.O.:-

(1) PUMPING INSTALLATION.- There is a pumping plant consisting of a Ruston Oil Engine with a centrifugal pump. The area under irrigation is about 25 acres. The plant will be working regularly for practically 300 days in the year. The Farm Mechanic is in responsible charge of the plant, its periodical overhaul, and efficient running condition, to supply the required water for this gardenland area.

(2) THE GINNERY.- There is a Robson Oil Engine with 2 sets of double roller gins to gin experimental cotton. 5,000 lbs. of cotton are ginned annually in this gin. The mechanic has to keep this unit in good repair and be responsible for its working.

(3) PIPE LINE.- There is an extensive pipe line on the station. This has to be regularly examined and repairs attended to. There are facilities in the work shops of the station to thread the pipes. He is in charge of this out fit and he will keep the pipe line in good condition.

pto.

(4) FENCING OF LAND.- There are nearly 10 miles of wire fencing on the farm. This requires attention. In some sections fencing will have to be renewed and in others repaired. This work is in the charge of the Farm Mechanic.

(5) REPAIRING AGRICULTURAL TOOLS.- There is a small work shop with a smithy. The workshop has a drill and other small machine tools by the help of which the repairs to implements of the Farm are executed by the mechanic.

The statutory qualifications require one year's practical experience in a workshop or a factory. On this Agricultural Research Station the mechanic has to undertake varied items of work as explained above. The training he obtains on the farm is more extensive and is of such a nature as to fit him for the duties of a farm mechanic. Farm experience of one year may be considered equal to the workshop or factory experience required.

ORDER Ms.No. 2432 dated 23rd June 1945.

Sri K.Narasimhamurthi was appointed ~~by the D.A.~~ as Mechanic at the Agrl. Research Station, Hagari in October 1943 under the emergency provision. At the time of the appointment the candidate possessed practical experience in a factory for a period of about six months only as against a period of not less than one year prescribed for Mechanics in Rule 7 of the Special Rules for the Madras Agrl.Sub.Service. The D.A. has recommended that the balance of the period to make up one year's practical experience may be counted against the candidate's service as Mechanic in the Agricultural Dept. from the date of his appointment and that he may be placed on probation from the date of the expiry of the above period. The M.P.S. Commission which has been consulted is of the view that the service put in by Sri K.Narasimhamurthi as Mechanic in the Agrl. Research Station may be considered equivalent to the practical experience in a workshop or a factory prescribed for the post of mechanic in the Madras Agrl. Subordinate Service.

NOTE FILE

Dev Dept

Cno 1296 cA 1/45

Sub: Establishment - Agriculture - Mechanic Agl Research Station, Hagari - Emergency candidate Sri. K. Narasimhamurthi - Regularisation of appointment

pp 1-2 cf

From the D.A. no. A.4-2481/44 dt. 24.2.45.

To A.S

pp. 5-7 cf BH. No. 114

One of the qualifications prescribed for the Mechanics in rule 7 of the Special Rules for Madras Agl. Subordinate Services is practical experience in a workshop or a factory for a period not less than one year. Sri. K. ~~Narayanamurti~~ Narasimhamurti appointed, under emergency provisions as Mechanic at the Agricultural Research Station Hagari does not possess this qualification. Prior to his appointment as mechanic on 25.10.43, he had practical experience in a ginning factory for nearly 6 months only. For the reasons given in para 3 of his letter, the D.A proposes that the balance of period to make up one year's practical experience may be counted out of his service in the Department as mechanic from the date of his appointment, and ~~he~~ his appointment may be regularised from the date on which he completed one year's practical course.

Public (Services) Department

Please see the letter from 10858 the Director of Agriculture at in the c.f and the Development's note at pp.1-2 ante.

The D.A's proposal can be given effect to either by relaxing rule 7 of the Madras Agricultural Subordinate Service Rules or by a declaration under rule 17(b)(ii) of the General Rules for Provincial and Subordinate Services, by the appointing authority with the approval of the Provincial Government. The latter course seems preferable. If this course is to be adopted the Provincial Government should consult the Commission before deciding that a qualification not prescribed in the statutory Service rules should be treated as equivalent to a qualification prescribed therein - see Annexure (E) of the Conventions with the Commission.

With the above remarks the file may be returned to Development.
